

Biosar

January

Biosar Nitrostar is an energizer and stimulant. It helps plants to increase carbon, nitrogen ratio significantly. It acts as yield booster. It is a granular fertilizer containing high nitrogen which helps to increase the crop yield.

Targets

Paddy, Wheat, Maize, Tea, Pulses, Vegetables.

2021

Biosar CAMS is a unique combination of secondary nutrients based on Calcium, Magnesium and Sulphur. These are very important and often are required as fertilizer or as soil amendments. Secondary nutrient are moderately required by plants. Secondary nutrients plays a major role in building up chloroplasts and help in photosynthetic activities in almost all crops.

Targets

All crops.

Biosar

April

Biosar Doctor Tee is a unique molecule, organic in nature with a combination of extracts from different plant source which have been found to have adverse effect & repellence on target insects. Doctor Tee acts as a repellent, thereby preventing the pest from settling on plants, trees, fruits etc. causing mortality by starvation through its anti-feedant property. It helps in vigorous root growth. It is target specific & do not destroy beneficial organisms.

2021

May

Biosar 20, is a micro nutrient which is critical to the growth and health of all crops. Boron is used in calcium cell wall synthesis and is essential for cell division (creating new plant cell), fruit and seed development, sugar transport and hormone development. Some functions of boron are interrelated with those of Nitrogen, Phosphorus, Potassium and Calcium in plant.

Target

Paddy, Wheat, Potato, Betel vine, Vegetable & flowers

Targets

Fusarium, Sclerotium, Phytophthora infestans, Ganoderma lucidona

2021

Biosar Trizyme increases the protein synthesis of plants and helps to catalysis the physiological process effectively. A nitrogen containing amino acid with zinc, humic acid and hormones to act as fertilizers and catalyst.

Targets

Potato and other Vegetables, Pulse, Maize Tea, Coffee, Sugarcane, Cotton, Sapling, Ornamental Plants, Fruits

2021

Biosar SUL is a secondary nutrient fertilizer containing Sulphur in easily available & absorbable form. It is available in both solid & liquid form. Biosar Sul is a combination of lime Sulphur and elemental Sulphur that can be used to treat various garden pest & diseases. It is effective against Thrips and Red spider mites with a strong vaporization and contact activity.

Targets

Crops – Groundnut, Pea, Sorghum, Cowpea, Moong, Citrus, Chilli, Cumin beans, Apple, Grapes, Mango.

Targets

Paddy, Vegetables, Fruits, Jute, Betel , Leaf, Groundnut, Mushroom.

2021

November

Biosar Neem Plus provides NPK + Humic acid+ Fulvic acid + all essential Micro nutrients. This product is 100% Organic in nature. This is helpful for better root growth, improving soil properties, betterment in water holding capacity, better soil-water-air relationship and overall plant growth and also has insecticidal effects to the roots.

Targets

Cereals, Pulses, Vegetables, Flowers, Fruits, Tea, Sugarcane.
